ABOUT ME

I'm a Back-end and front-end developer with over 7 years of experience.
My expertise encompasses PHP, Node.js, Vue.js, and React.js, supplemented by proficiency in frameworks such as Laravel, Lumen, Nest.js, Nuxt.js, and Next.js. Additionally, I possess a background in microservices architecture, Kafka, socket programming, turborepo, caching strategies, and queue management.
I am also currently learning Golang and actively uploading diverse projects developed with this language to GitHub.
