ABOUT ME

I have over 8 years of experience in backend development with PHP and Node.js, leveraging frameworks such as Laravel and NestJS. My expertise extends to multitenant projects, microservices architecture, Kafka, socket programming, caching strategies, and queue management. Since 2020, I have focused on building applications with NestJS and Go, further honing my backend skills.

SKILLS

- Nodejs
- Nestjs Framework
- Typeorm & Prisma
- Custom JWT & ACL
- SocketIO
- Custom Libs
- Golang
- Gin Framework
- Gorm Orm
- Custom Commands
- Realtime Services
- Scheduler
- Microservice, Kafka
- Docker
- Swagger
- Redis
- Caching
- Queue

WORK EXPERIENCE

- **Karizor**
  Part-time
  September 2023 - March 2023
  https://karizor.com/

  ⇢ Microservices Architecture with Kafka
  ⇢ Developed eight microservice using NestJS & Lumen
  ⇢ Real-time Notifications implementation
  ⇢ Device Activity Logger for tracking device activities

- **Alert**
  Part-time
  January 2023 - September 2023
  https://alert.ir/

  ⇢ Microservices Architecture with Kafka & Redis
  ⇢ Developed five microservice using NestJS & Lumen
  ⇢ RESTful API and Socket.IO for real-time communication
  ⇢ Real-time Notifications implementation
  ⇢ Operator Activity Logger for tracking user actions

- **Telebourse**
  Full-time
  December 2020 - February 2022
  https://telebourse.ir/

  ⇢ Developed financial backend systems using Lumen and NestJS
  ⇢ Designing and developing various financial charts
  ⇢ Web scraping for stock market data
  ⇢ Real-time Communication for Chart Data

- **Behina Gostar Nano**
  Full-time
  November 2019 - November 2020
  https://biz.tamuk.ir/

  ⇢ Working on a comprehensive business system project
  ⇢ Developed backend systems using NestJS and Laravel
  ⇢ Utilizing Redis for inter-app communication
  ⇢ Real-time Communication between Operators and Customers
  ⇢ Real-time Notification for Pre-order Submission

- **Parmand**
  Full-time
  May 2018 - September 2019
  http://alls.ir/

  ⇢ Development of several shopping and entertainment projects
  ⇢ Backend development using Laravel and Nest.js
  ⇢ Integration of payment gateway for secure transactions
  ⇢ API Documentation using Scribe for Laravel and Swagger for NestJS

- **Pardad Pardazesh**
  Full-time
  August 2017 - May 2018
  Rasmio Link

  ⇢ Development of the marketer management project
  ⇢ Eveloped backend applications with Laravel and NestJS
  ⇢ API Documentation with Postman

- **Barname Sazan**
  Full-time
  May 2016 - May 2017
  ~~Without Link~~

  ⇢ Developed backend services for websites using Laravel
  ⇢ Educational Platform and Legal Website

LONG-TERM PROJECTS

- **Digital Brand Boards**

  The Digital Advertising Boards project was built with NestJS and Lumen, featuring eight microservices. The system allowed an Android app to communicate with the backend, enabling to display programs on digital billboards. The admin panel provided tools for designing ads program for various billboard sizes and scheduling content for each model, ensuring dynamic, time-based display management.

  https://karizor.com/

- **Intelligent Fire Fighting System**

  Developed an online fire safety and emergency services project using IoT for fire monitoring and alerts. The backend was built with Nest.js and Lumen using a microservices architecture and Kafka as a message broker, while the frontend was developed with Vue.js. Api subdomain changes periodically.
